

Banking Sector Roundup - H1 FY25

DECEMBER 2024

Glossary: Classification of Indian banks used in this document

PSU (12 banks)

Private—New (10 banks)

Private—Old (10 banks)

Small Finance (4 banks)

H1FY25 results: Banking industry snapshot

1. Retail loans include home loans, auto loans, personal loans, and other retail loans. 2. MSME includes SME, LAP, Business Banking, and CV/CE loans
 Analysis has been made based on 36 Banks: 12 PSBs, 10 Private-New, 10 Private-Old Banks and 4 Small Finance Banks
 Source: Capitaline, Financial Results, Investor Presentation; BCG analysis

Summary Snapshot (I/II)

Macro Trends

- **Economic growth:** GDP growth for Q2 FY25 at 5.4%. FY25 GDP forecasted to grow between 6.6-7.2% YoY
 - The World Bank increased India's growth forecast for FY25 to 7% from 6.6%, expecting the economy to remain strong in medium term
- **Economic landscape exhibits mixed trends**
 - The auto sector registered growth across all segments, fueled by a surge in seasonal demand
 - Forex reserves hit a record high in Sep'24, boosted by a notable surge in foreign currency assets and gold reserves

Key Performance Indicators

- **Profitability:** Banking industry reported 20% YoY growth in Net Profit
 - PSU banks' PAT grew by 26% YoY, driven by decline in provisions and surge in non-interest income
 - Private banks reported 17% YoY growth in PAT, driven by controlled growth in operating expenses
- **Operational efficiency:** CIR improved across the board, decreasing by 130 bps to 47.9% for the industry
- **Capital Adequacy:** All banks¹ have CRAR >14% signaling resilience in their risk management capabilities

Summary Snapshot (II/II)

Business

- **Credit:** Healthy credit growth of 13% YoY in H1 FY25
 - YoY Growth - Retail: 15%, Agri: 15%, MSME: 16%, Corporate: 9%
 - CD ratio at 80%, indicating potential stress in funding availability going forward
- **Deposits:** Grew 12% YoY in H1 FY25
 - Industry CASA Ratio: 37%
 - YoY Growth - CASA: 7%, TD: 15%

NPA & Risk Mgmt.

- **Decline in GNPA:** Improvement in asset quality, from 3.5% in H1 FY24 to 2.6% in H1 FY25
 - PSBs: 3.1% (4.2% in H1 FY24); Pvt Banks: 1.8% (2.1% in H1 FY24)
- **Provisioning and risk preparedness:** PSBs reported 4% decrease in provisions while Private Banks increased provisions by 23%

Digital & Payments

- **Digital Payments:**
 - CC transactions now >2x DC transactions, indicating significant behavioral shift in consumer spending
 - UPI continues to drive significant volumes in payment and grew by 38% YoY

Key Performance Indicators - (Banks + NBFCs)

Key Performance Indicators - Banking Sector

Business: Advances & Deposits

NPA & Risk Management

Digital in Banking

Key Regulatory Measures

Individual Player Performance

NBFCs credit growth outpaces Banks credit growth in H1-FY25

Player-group wise y-o-y growth in advances

1. Taper Tantrum crisis of 2013 refers to foreign investors pulling out money from equities and bonds in emerging markets as a reaction to US Fed announcement of reducing/ceasing its bond purchase program; this led to a tightening of liquidity available in the market, impacting both banks & NBFCs

Note: Analysis has been made based on 31 NBFCs (9 HFCs, 2 Gold, 3 MFI, 1 Cards and 16 Diversified NBFCs) and 32 Banks (12 PSBs, 10 Private-New, 6 Private-Old Banks and 4 Small Finance Banks)

Source: Capitaline, Quarterly Results, Investor Presentation, Annual Report, BCG Analysis

NIM marginally declined y-o-y in H1FY25 for both Banks and NBFCs; CIR improved for both Banks & NBFC category

Net Interest Margin¹ (%)

Cost to Income Ratio² (%)

— Banks — NBFCs

1. NIM is calculated as (Interest Income - Interest Expense)/Average Assets 2. Cost to Income is calculated as Operation expense/(net interest income + other income)
Operation Expense excludes "Net loss on fair value changes", "Net loss on derecognition of financial instruments under amortized cost category", "Net Transaction Exchange Loss" and/or "Loss/write-off on Repossessed Assets and Assets acquired in satisfaction of debt" ; NIM has been annualized

Note: Analysis has been made based on 31 NBFCs (9 HFCs, 2 Gold, 3 MFI, 1 Cards and 16 Diversified NBFCs) and 36 Banks (12 PSU, 10 Private-New, 10 Private-old banks and 4 Small Finance Banks)

Source: Capitaline, Quarterly Results, Investor Presentation, Annual Report, BCG Analysis

Asset quality consistently improving for Banks and NBFCs; Credit cost on a rise for NBFCs in all categories except HFCs

GNPA¹ (%)

Credit Cost² (%)

— Banks — NBFCs

1. GNPA for NBFC has been calculated based on weighted average on total advances 2. Credit Cost is calculated as provision and contingencies/average assets & have been annualized
Note: Analysis has been made based on 31 NBFCs (9 HFCs, 2 Gold, 3 MFI, 1 Cards and 16 Diversified NBFCs) and 36 Banks (12 PSU, 10 Private-New, 10 Private-old banks and 4 Small Finance Banks)

Source: Quarterly Results, Investor Presentation, Annual Report, RBI, BCG Analysis

RoA & RoE on a downward trend for NBFC category; on an upward trajectory for Banks

Return on Assets¹

Return on Equity²

— Banks — NBFCs

1. Return on Assets is calculated as net profit/average assets 2. Return on Equity is calculated as net profit/average shareholders' fund

Note: Analysis has been made based on 31 NBFCs (9 HFCs, 2 Gold, 3 MFI, 1 Cards and 16 Diversified NBFCs) and 36 Banks (12 PSU, 10 Private-New, 10 Private-old banks and 4 Small Finance Banks)

Source: Capitaline, Quarterly Results, Investor Presentation, Annual Report, BCG Analysis

PSBs have delivered significant outperformance over the past three years

Total Return (%)

	Pvt. Banks	PSBs-Large	PSBs-Medium	SFBs	NBFCs	Sensex
3-Yr Return	62.6%	187.5%	216.8%	25.1%	105.1%	42.6%

Note: PSU index includes 7 PSU banks-Large, 5 PSU banks-Medium, Private Bank index includes 10 Private-New and 10 Private-Old Banks, SFB index includes 4 SFBs, NBFC index includes 11 public NBFCs. Index weighted as per market capitalization of banks Index period from August 2021 to September 2024

Overview: Unified Lending Interface (ULI)

The ULI is a digital platform introduced by the RBI to transform the lending process by enabling **seamless and consent-based access to a borrower's financial and non-financial data**.

The platform leverages data like land records, income records, and more to ease the loan process, helping borrowers who traditionally face difficulties in securing credit due to a lack of formal financial history.

Key Objectives and Benefits

- 1 Speeding up Loan Approval
- 2 Seamless Data Flow
- 3 Standardized APIs for Integration
- 4 Data Privacy and Consent-Based Sharing
- 5 Financial Inclusion
- 6 Lower Operational Costs and Interest Rates
- 7 Automated Decision Making

Key Objectives and Benefits

- 1 Data Privacy Concerns
- 2 Technical Integration
- 3 Ethical Use of AI

Future Prospects

- 1 Nationwide Impact: The platform aims to cater to a large, **unmet demand for credit**, making lending more **efficient** and **inclusive**
- 2 Financial Ecosystem Enhancement: By integrating with existing infrastructure like **UPI** and Jan Dhan-Aadhar Mobile (**JAM**), ULI is a key part of India's broader push towards building **world-class digital infrastructure**
- 3 Continued Innovation: It is expected to unlock **further data sources** (e.g., gig platforms) and enhance credit appraisal capabilities

RBI maintains the repo rate at 6.5% without any changes to balance growth and inflation

Macro Indicators

Key Performance Indicators - (Banks + NBFCs)

Key Performance Indicators - Banking Sector

Business: Advances & Deposits

NPA & Risk Management

Digital in Banking

Key Regulatory Measures

Individual Player Performance

Key Recent Regulatory Measures

Banking laws bill

- Increase in number of nominees per bank account to four from the existing one
- Redefinition of 'substantial interest' for directorships, raising the threshold from ₹5 lakh, to ₹2 crore
- Flexibility to the bank in determining the pay for statutory auditors
- Change in the regulatory reporting dates for banks to the 15th and last day of each month, replacing the current second and fourth Friday

RBI guidelines on IT governance, Risk, Controls and Assurance practices

- REs to put in place robust IT service Management Framework for supporting internal IT systems and infrastructure for operational resilience
- REs should have a documented data migration policy specifying a systemic process for data migration, ensuring data integrity, completeness and consistency
- Risk management policy of the RE should include IT related risks, including the cyber security related risks and risk management committee of the board to periodically review it at least once a year

RBI proposed draft guidelines for credit risk models

- Comprehensive Board-approved policy for all deployed models that encompass governance oversight, development processes, documentation, independent validation, change control and monitoring
- Deployment of individual credit models to require approval of Risk Management Committee or a designated sub-committee

RBI's LCR related draft guidelines

- Banks to account higher liquidity for possibility of an outflow of retail deposit through digital means while calculating the LCR by a higher run off factor of 10% from current 5%
- Banks to apply relevant haircuts on the assets while calculating LCR

Key Recent Regulatory Measures

RBI increases UPI transaction limit for tax payments

- UPI transaction limit for tax payments has been raised from Rs 1 lakh to Rs 5 lakh per transaction
- RBI also proposed a new feature called “Delegated Payments” for UPI users; this allows a primary user to authorize another individual to make UPI transactions from the primary user’s bank account, up to a specified limit

RBI revised guidelines on Priority sector lending (PSL)

- RBI assigns a 125% weight to incremental priority sector credit in districts with per capita credit below ₹9,000 (effective FY25)
- A reduced 90% weight applies to districts with per capita priority sector credit above ₹42,000, revised from ₹25,000.

RBI proposed draft guidelines for enhanced regulation of payment aggregators (PAs)

- Banks offering PA services do not need RBI approval, but must comply with new rules within three months
- Offline Non-bank PAs need RBI authorization by May 31, 2025. Must notify RBI within 60 days if seeking approval; can continue operations while under review
- Online non-banking PAs need approval for any offline PA services within 60 days
- Non-banking PAs need a minimum ₹15 crore net worth, increasing to ₹25 crore by March 31, 2028
- Only card issuers and networks may store payment data after August 1, 2025. Limited data (last four card digits, issuer name) may be stored for tracking

Domestic Money Transfer (DMT) framework

- The remitting bank shall obtain and keep a record of the name and address of the beneficiary
- Banks and Business Correspondents (BCs) must register the remitter using a verified mobile number and a self-certified Officially Valid Document (OVD) per updated KYC norms
- Each transaction must have an Additional Factor of Authentication (AFA)
- Remitting banks and BCs must adhere to the Income Tax Act, 1961, and related regulations
